Confidentiality: Highly Restricted Internal

1. Company Overview

Vanguard AutoTech Corp is a leading heavy-industry manufacturing company specializing in the design, engineering, and mass production of high-durability automobile components. Established in 1994, Vanguard supplies critical suspension systems, drive shafts, engine manifolds, and transmission housings to top-tier global automotive brands. Headquartered at the Detroit Vanguard Industrial Park, Plant B, in Detroit, Michigan, Vanguard operates a multi-facility campus including design labs, stamping houses, foundry systems, and clean-room assembly lines. We are a key component supplier in the North American automotive supply chain, known for unmatched safety standards and extreme precision.

2. Vision & Mission

- **Our Vision:** To engineer the mechanical backbone of tomorrow's vehicles, ensuring peak performance, passenger safety, and reliability through advanced engineering and manufacturing excellence.
- **Our Mission:** To manufacture automobile components of the highest caliber, leveraging automated assembly pipelines, strict metallurgical quality control, and zero-defect initiatives to exceed client specifications.

3. Organization Structure

Vanguard AutoTech operates under a centralized executive hierarchy optimized for industrial efficiency, engineering precision, and supply chain stability.

Role	Name	Base Office	Employee ID
Chief Executive Officer	Vikram Rajan	Detroit, MI	VG-10001
Chief Operations Officer	Thomas Kowalski	Detroit, MI	VG-10002
Chief Engineer	Dr. Aris Tanaka	Detroit, MI	VG-10008
Director of Quality Assurance	Elena Rostova	Detroit, MI	VG-10012
HR Director	Linda Garff	Detroit, MI	VG-10015
Facilities Manager	Bud Henderson	Detroit, MI	VG-10022

4. Departments

- **Stamping & Foundry Division (SFD):** Led by Thomas Kowalski. Manages physical metallurgy, die casting, stamping presses, and forging lines. Contact: `foundry@vanguardautotech.com` (Ext. 7001).
- **Assembly & Automation (A&A):** Led by Dr. Aris Tanaka. Focuses on robotic welding arms, sensor integrations, automated test loops, and paint booths. Contact: `robotics@vanguardautotech.com` (Ext. 7002).
- **Quality & Metallurgical Testing (QMT):** Led by Elena Rostova. Performs structural stress analysis, micro-imperfection scans, and safety certification. Contact: `qa@vanguardautotech.com` (Ext. 7003).
- **Plant Operations & Safety (POS):** Led by Bud Henderson. Oversees machinery safety, industrial waste controls, physical security, and facilities maintenance. Contact: `safety@vanguardautotech.com` (Ext. 7004).
